

# Oooooooh la la tunes...

**Severin Clemence? More like SexHerIn Venice! (?) Slink around all sultry sweet drenched in perfume and tease some lucky sucker with these lusty numbers.**

Playlist links at the bottom. The vibes are all over the place with this one (as is typical with my playlists). But sex has so many different moods throughout that you need all of it! And this is 4 hours long so you can skip as often as you need. Not to be listened to in any particular order. You just have to pray the shuffle reads the room and fits the moment. Honorable mention: The Cage by Death Grips. Great song to give head to.

**Kimmi In a Rice Field by Mr Twin Sister:** The opening of the legs like the blooming of a flower...

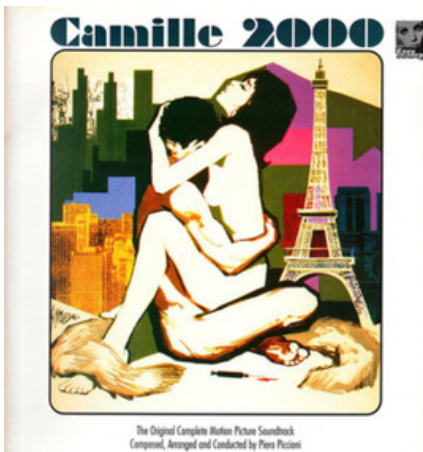

**Hard to Tell (feat. Alison Skidmore) by Andy Stott:** Don't have to fear, no need to fight, it's all surrender, it's alright. When you listen to this you have no choice but to succumb to the moment and leave all anxiety surrounding intimacy behind. A song with waves that crash like pleasure. Building up, then going back down.

**Body / Reaction by Panther Modern:** Horny goth music, who can be mad at that? At their show I saw two girls making out fucking FEROCIOUSLY against a wall like they were fighting for their lives and I'll never forget it for the rest of my days. I miss being a teenager and doing disgusting shit with my friends and not giving a fuck.

**Miss Me (feat. ABRA) by Toro y Moi:** Slow, sweet, MAKE EYE CONTACT!

**Je T'aime Moi Non Plus by Brigitte Bardot:** This shit is for the girliessssss like fun and sweet and sexy it's great, enjoy! You can't have a sex playlist without a moan filled song.

**Easy Lovers by Piero Piccioni:** Just look at the cover art. Need I say more?

**Black by The Soft Moon:** THE WHIPPING SONG THE NASTY SONG THE DEEP THROAT THE STRAP SONG!

**Don't Say No by Speed, Glue, & Shinki:** Big siiiiiigh ahhhhhhh. One of my favorites on the list.

OooooooooooooOoOoOoOOOOOOOO ;)

**Holy Terrain (feat. Future):** FKA's best fuck song for sure.

**Ricordandoti by Piero Umiliani:** It's devilish darling, it's divine! Beautifully scandalous and sensual. Another one of my favorites on the list. Unlocks something in me.

**Alone by Colin Newman:** Moody, mysterious, dark. Makes for a down right good fucking. Reminds me of Lost Highway by David Lynch.

**With a Sense of Grace by Kit Sebastian:** STOP AND KISSSS LIKE RIGHT NOW KISS ME WITH A SENSE OF GRACE!!!! Great sex album.

**Lipstick by Ariel Pink:** Just let me have this.

**Saga Of a Secluded Swamp Monster by G.R.C. Five:** I feel like bohemian French grandmas were fucking to this back in the day and that's the vibe I'm trying to be on. Tease and slink around all minxy like <3 (unavailable on Spotify sorry)

**Windowlicker by Aphex Twin:** For having weird scary sex yay :)

**Voyeur by James Blake:** Has softer slower moments but also more intense pockets which we need. We love variety.

**FE!N (feat. Playboi Carti) by Travis Scott:** Ok CORNY sure but Hear me out. Give head to this song. Or fuck somebody's face to this. Just try it.

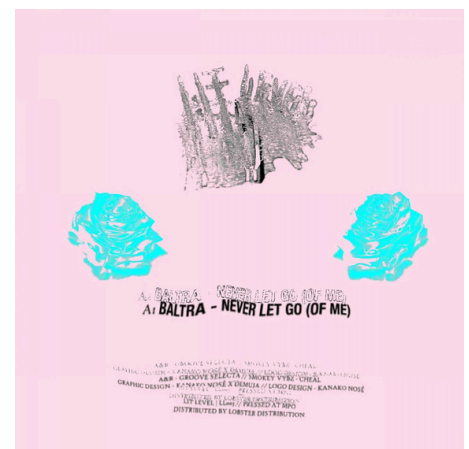

**Black Milk by Massive Attack:** I couldn't make a sex playlist and not have a song from this album on it. Dreamy, erotic, and atmospheric. No line between pain and pleasure here.

**French Waltz by Leon Ware:** Honestly I don't really have feelings towards this song one way or another it's kinda just here.

**Never Let Go Of Me (Slowed) by Baltra:** For when you need to have sex in sloooowww mooootttiiiooonnn.

**Black Flower by Piero Piccioni:** The second track by Piccioni. I don't know if you're starting to notice a trend, but I like to fuck to 70s Italian movie soundtrack songs. **THEY'RE JUST GOOD!**

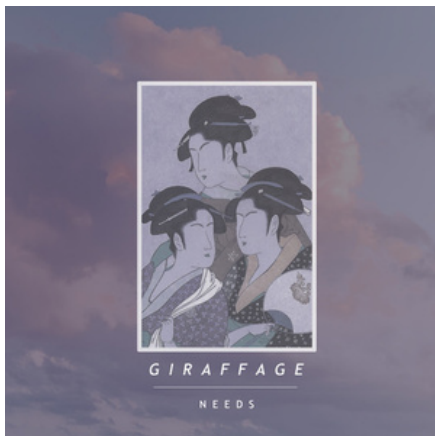

**La Femme d'argent by Air:** Easy on the ears. Feels like you're taking off in a sexy spaceship on a sexy space adventure.

**O Amor Em Paz by the Tamba Trio:** The first 15 seconds feel like that moment of super tension right before you orgasm where you're not sure if you can take it anymore then BOOM the 16th second hits. Sweet release.

**New Romantic by Andy Stott:** INCREDIBLE fuck song. Intense yet tender and everything real. Bass you can feel in your genitals. Sensual vocals and synth sounds. I never skip this one. I swear to god I have like erotic blackouts where I go into a sexual trance and don't come back out till this song ends. Mesmerizing. Just wish it were longer!!!!

**Talk To Me You'll Understand by Ross From Friends:** Dumbass band name. I find this one borderline too emotional for me at times but it's still solid. I mean it literally just repeats "talk to me you'll understand" so if you have communication or vulnerability issues with your lover of choice BEWARE lmao

**Thinking About You by Giraffage:** Big nostalgia choice for me. I remember fucking to it in high school. You can realllly tell this song is from 2013 lol but I still like it. GIIIIIRL IVE BEEN THINKING ABOUT YOU ALL DAY LONG

**Tried by BADBADNOTGOOD & Little Dragon:** It's just pretty!!

**Circles by The Soft Moon:** ANOTHER WIN FOR THE WEIRD SCARY SEX HAVERS!!!!

**Dancing On Your Grave by Pixel Grip:** More horny goth music. Lots of electronic on this playlist. This whole album is great for sex if you're craving something more intense. Amazing group.

**III. Urn by Childish Gambino:** You're not fucking, you're making love.

**L'amour Joue Au Violon:** This absolute queen. Wish I knew what she was saying but either way she's hot. Yummy song. Good for teasing. Apparently they made a Spanish version of this album too! Yet to listen.

**Blue Velvet by Alberto Baldan Bembo:** Another 70s Italian movie soundtrack song sorry but I NEEDED them.

**Mafatshi Leh by Al Massireen:** I'm on the back of somebody's bike and they grip my thigh at a stoplight and I know what we're going to do when we get home so I need them to drive faster.

**Instant Calm by Washed Out:** Another nostalgia pick for me. Slow, sexy, and fits right into the mix.

**Libidine - Seq 8 by Nora Orlandi & Stelvio Cipriani:** Yes. You guessed it. More Italian 70s. If I had to break down the appeal of a lot of these 70s Italian soundtrack songs it's because they're sensual, inoffensive, and not distracting. They're filler tracks but can also be the star of the show.

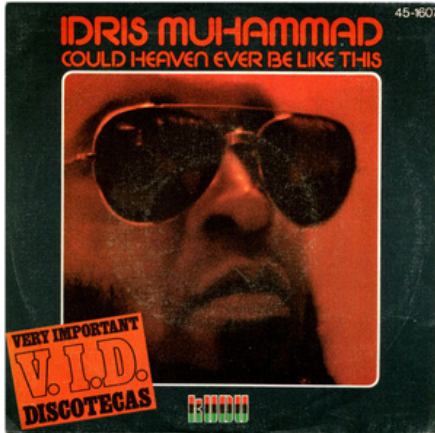

...**And the Rain by John Maus:** I love this album and I think this is fun to make out to! But I skip it sometimes.  
**Gospel For a New Century by Yves Tumor:** TALK ABOUT A FUCK SONG HONEY!

**Autopilot by Sports:** I used to have this on old sex playlists and idk it still gets the job done for me! The singer's voice kinda bugs me though.

**Betty et Zorg by Gabriel Yared:** This soundtrack song is different cause it's FRENCH alright. Makes me wanna meet up in the middle of Midwest nowhere in an old motel for a little rural rendezvous.

**Could Heaven Ever Be Like This by Idris Muhammad:** GET IT THE FUCK ON. Beautiful lyrics. Little too long but that's disco baby. Sometimes I need to feel like disco soul sex king Barry White while I'm fucking without actually listening to disco soul sex king Barry White while I'm fucking.

**Lavender by BADBADNOTGOOD:** Have you tried spitting on it? Have you been begged for a slap? Have you felt drunk from power during sex to then have power hangovers? Have you?

**Love Hangover by Diana Ross:** I mean how could I not? If you get it, you get it. Uptight straight guys who are too into folk music won't get it but I like having FUN BITCH!!!!!! Fuck you it's Diana Ross

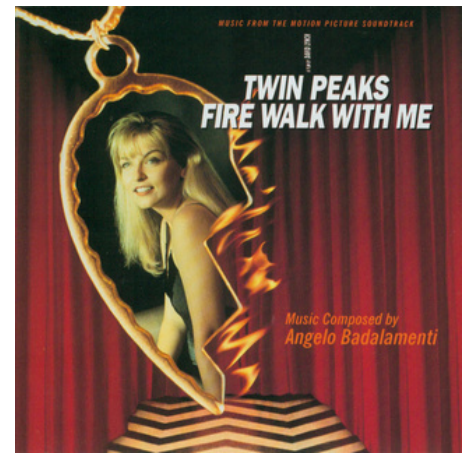

**Sabbat, pt. 3 by Cortex:** Great band. Short and sweet, doesn't overstay it's welcome, and provides a nice sexy interlude.

**Each Time You Fall In Love by Cigarettes After Sex:** Similar to the Ross from friends track, this one borders on too emotional for me sometimes. Like I can't listen to the lyrics too closely or it'll totally take me out of it. Very pretty and tender though.

**The Pink Room by Angelo Badalamenti:** Nasty, dark, gritty. From the scene in Fire Walk With Me where Laura dances with her tits out. And guess what! Makes me wanna dance with my tits out.

**SLIME by Shygirl:** For the girlies like I haaaad to raaawwrrrr. She came to fuck muah 

**La Mardrague by Brigitte Bardot:** Almost too cutesy. I like the other Brigitte bardot track on this playlist better. Good for kissing and post-coitus pillow talk!

**L-O-V-E by Fisher:** This one is a little cheesy but cute, idk I really like it! Sensual and simply so so pretty hehe

**La Rajita De Canela by Mike Laure:** Yoooo I'm trying to dry hump grind dance with some motherfucker to this, like face to face making out whole time just down bad nasty in the middle of the kitchen can't help it kind of moment. It's so fun such a good song! His album covers go hard.

**Vicino A Te by Stelvio Cipriani:** Don't even ask yes it's 70s Italian soundtrack I'm addicted!

**No Fun by Sextile:** Two words. FINGER HER!!!!!!!!!!  
**Frankie's First Affair by Sade:** Gotta have a Sade track.  
This is one of my favorites by her.

**Altered States by Freak Heat Waves:** Remember those erotic blackouts I mentioned, sexual trances? My altered state of choice <3

**Luxury Problems by Andy Stott:** Huge fan of him.  
Another great track. Erotic, erotic, erotic.

**Six Bells Chime by Crime & the City Solution:** Wings of desire? Wings of desire anyone? This one has a very similar vibe to The Pink Room.

**Xtal by Aphex Twin:** Classic.

**Mulher Brasileira (Medley) / Domenica Domingava Num Domingo:** Very very fun song. You need the live version not the recorded one. My favorite by him. He just loves women and you can feel it, unabashedly sexual and joyful. He's so hot I swear he looks like a brown Anthony Bourdain to me. This song makes me think of making out in the back of the car and ripping your clothes off. Giggling and smiling between kisses because you're so happy. Ahhhh I love it!

**Dracula by Cindy Lee:** ALBUM OF THE YEAR BAY BEEEE! Okay so not only is this a fantastic album, this is a fantastic FUCK album. This song in particular is so sexy to me. Cindy Lee forever <3
